Water Pollution Control Update

- **Plant**
 - Preparation for 2024's disinfection season has begun.
 - Matt Copeland is now on swing shift. He completed his operator training on 3/15/24.
 - Amendola Engineering is currently working on requesting an update for the status of our previous OEPA Outfall proposal.
 - April 5th – MH Equipment is scheduled to perform tow motor certification and training for WPC personnel. This event will take place at the wastewater plant.
 - February 23rd – provided a plant tour for Ashtabula County Leadership program.
 - DJE Electrical is procuring replacement overloads for the grit blowers. They will be installed once received.
 - WPC staff is currently working to replace flooring in the maintenance building office and hallway.
- **Collection System**
 - Tivision pump station – Removed pump, cleared debris from pump, re-installed pump with new cutter assembly.
 - Replaced the batteries at the Bridge and Morton pump station, backup generator.
 - West 14th SSO elimination and sewer rehabilitation project is 75% complete.
 - West 9th SSO ultrasonic level indicator is currently not communicating. We are working with 540 Technologies to resolve the issue.
 - We've completed numerous camera inspections and there have been multiple repairs completed in the collection system this past month.
- **Misc. –**
 - GPD Study is still ongoing. This includes the short/long term capital improvement plan, sewer rate study, and SSO elimination (NFA).
 - Single axle International dump truck is out for repairs at Capp Steel. Work to be completed includes removal and installation of dump bed for fabrication of lifting mechanism, rear hinge point, and replacement of bad frame section.
