Water Pollution Control Update

Plant Operations

- **Outfall Relocation**
 - Project is approximately 75% complete. The contractor is currently backfilling the roadway and working to restore the site.
 - Coordinating with Control Associates to procure and install the new outfall flow meter.
- **Disinfection**
 - Disinfection season ends October 31. The UV system will be turned off, cleaned, and winterized at that time.
- **Preventative Maintenance (PM)**
 - Replaced heater in the skid steer.
 - Replaced the air lift cylinders for the tailgate on the Freightliner dump truck.
- **Generator**
 - Installed rebuilt fuel pump and injectors during the week of October 17.
 - Tested and ran the unit successfully.
 - Re-wired the plant generator to the facility electrical substation on October 18.

Collection System

- **Preventative Maintenance (PM)**
 - Maintenance crews are performing oil changes on all collection system generators.

Miscellaneous Updates

- **Industrial Pretreatment**
 - Annual industrial pretreatment inspections with Verdantas are underway.
 - Permit renewal review process has begun; new permits are expected to be issued by the end of calendar year 2025.
 - Technical Justification – Ongoing.
